## UNIVERSITY EXPERT IN SPORTS TALENT RECRUITMENT

### Introduction

With the **University Expert in Sports Talent Recruitment**, we will be able to gather all the information on possible market movements, additions and deletions, young promises, youth players with the possibility of joining the first team and stars who want to change their team.

All this together with the permanent search of improving our sport block, make this task unique.

Finding the right player for the right position and having a great impact on the team is a task of utmost professionalism and risk. The incorporations are not always positive and can break the scheme or the ideology of the team.

Players who have a strong character or veterans who take over the locker room also have to be corrected to synchronize the interests of the sports entity. This program is aimed at:

- Graduates in Physical Activity and Sport Sciences.
- Qualified coaches.
- Technicians with experience in soccer.

*Talent, as an aptitude, is the ability to perform or exercise an activity.*

### RAE

If we associate this concept of the Royal Spanish Academy with our topic, we can easily deduce that a good sports talent scout must evaluate different aspects in order to determine whether or not the athlete has the capacity to be part of the soccer team.

## DEFINITION

Our **University Expert in Sports Talent Recruitment** is unique in the market, and tries to develop in soccer professionals the necessary skills to identify young talent. Providing in a determined way the basic information to distinguish when it is in front of a good sportsman.

When selecting a sports talent, different factors are taken into account, which, in this case, the recruiter must know and consider:

- Family support.
- Physical condition.
- Body condition.
- Intellectual capacity.
- Volitional qualities.
- Preparation for training.
- Constancy and discipline of the athlete.
- Development on the playing field.
- Psychological tests.

Each of these qualities can be identified through our **University Expert in Sports Talent Recruitment** through which you will acquire the ability to define these factors, as well as others that should be taken into account in a measure of long, medium and short term.

**Virtual Classroom:** The courses are taught entirely in online mode. They are made through our virtual campus that is accessed from the front page of our website, [www.futbollab.com](http://www.futbollab.com) , through the **Virtual Classroom Access** button. From there you can enter topics, explanatory presentations, demonstration videos, teacher analysis, tasks that are sent to you and corrected by teachers.

**Tutors:** Teachers offer continuous tutoring, establishing telephone tutorials and / or videoconferencing explaining the doubts that arise. They guide your formative evolution throughout the course, depending on your profile and level of dedication or study schedule. As we have indicated, the syllabus, videos, articles, interviews with experts, etc., are part of your evolution in the course, so you will perform periodic exercises that the teacher corrects to give you the clearest idea of the topic being working.

**Evaluation:** At the end of the course you will carry out a final project that will encompass all the areas studied and that will always involve the development of a real case, since from FutbolLab we want our courses at all times to be directed to the real training situation found in technicians in their teams.

**Enrollment process:** To enroll you just have to click on the Enroll tab, from there it will ask you to enter your personal data necessary for the academic record and in the final part of the process you can choose the payment format of this program.
