INTRODUCTION

FutbolLab offers an integral service of sports and educational stays for coaches from all over the world in Spanish football clubs. Through personalized training and active participation with the teams that we have a collaboration agreement in Barcelona, the aim is that these players acquire new person and collective knowledge.

FutbolLab offers an internship service for coaches mainly in Barcelona but also offers the possibility of internships in other Spanish cities such as Madrid, Coruña, Bilbao and Seville.

We want soccer coaches from other countries to be able to do internships with FutbolLab. In this way, we would like to help them to know firsthand how to work in Spanish soccer and what is the technical, tactical, physical and psychological training method carried out by Spanish players. This will be done through the top level clubs with which we have agreements, since they have been the great participants in the success of their teams and especially the national team, which has won two European Championships and a World Cup.

In all cases, FutbolLab will give support through its virtual campus before, during and after the internship to discuss the evolution and knowledge acquired by the players who visit us. It seeks to complement the knowledge and skills of all coaches who do internships, with the idea that these give an added value to carry out the team where they work and evolve professionally and personally.

2 MONTHS

During 2 months you will receive training through a classroom course that will be complemented with practical stays in the afternoon in one of the clubs where we have agreements. You will actively participate in the training, along with the coaching staff of the team, so you will be able to see live the method worked, as well as the teaching styles that are applied in each game situation.

3 / 6 / 10 MONTHS

These programs are highly specialized and give coaches the ability to see different teams and the ways of working of each one of them. The enrichment will be given by the improvement courses (personal treatment with the trainee coach) that take place in the mornings and complemented with the practices in different clubs that take place in the afternoons.
